

La Bombe

The crowd opens with Aunt Polly crossing the fence in search of her nephew, Tom Sawyer. She finds him in the closet, discovers that his hands are covered with jam, and prepares to give him a whipping. Tom runs out dramatically, "Look behind you!" and when Aunt Polly turns, Tom escapes over the fence. After Tom is gone, Aunt Polly reflects carefully on Tom's mischief and how she lets him get away with his work.

Tom crosses fence at supper time. During supper, Aunt Polly discovers that Tom has been at the mill and that his collar is still smeared with jam. Tom's half brother, Sid, tries to help Tom, but Aunt Polly is satisfied, and Tom has earned the right to go to school.

Tom goes out of the house to play the streets of St. Petersburg. Tom and the new arrival, Huckleberry Finn, choose the adventures all the way home.

When he returns home in the evening, Tom finds Aunt Polly waiting for him. She notices his dirty clothes and decides to make him work the next day, a Saturday, as punishment.

On Saturday morning, Aunt Polly sends Tom out to whitewash the fence. Tom passes by, and Tom tries to get him to do some of the whitewashing in return for a "white alley," a kind of excuse. Tom almost agrees, but Aunt Polly appears and chases him off, leaving Tom alone with his labor.

El bombe era un dispositivo electromecánico (un ordenador de uso específico) usado por los criptólogos británicos para ayudar a descifrar las señales cifradas por la máquina alemana Enigma durante la Segunda Guerra Mundial. La Armada y el Ejército de los Estados Unidos produjeron máquinas con la misma especificación funcional, pero diseñadas de una manera diferente.

La bombe est elle-même entourée d'une structure qui va permettre de retenir l'apport massif de rayons X produits par l'explosion de la bombe à fission. Ces ondes sont alors redirigées afin de comprimer le matériel de fusion et l'explosion totale de la bombe peut alors commencer.

Bombe H — Wikipédia

La bombe A, communément appelée bombe atomique, bombe à fission ou bombe nucléaire, est un engin explosif où l'énergie est obtenue par la fission nucléaire d'une masse critique d'éléments fissiles comme l'uranium 235 ou le plutonium 239. Son procédé a été couvert par le brevet français 971-324 de 1939 à 1959.. Les bombes à fission furent les premières armes nucléaires ...
